

GROUP AND INSTITUTION (MACRO)

C the enforcer reshapes the rules

human, agent, or mixed

A. Institutional change

e.g. add graduated sanctions
or an appeal step

what designers hope happens

human, agent, or mixed

D. Group outcomes

cooperation, enforcement cost,
false punishment, repair

1. How does the rule change
each agent's situation?

4. How does behavior add up
to group outcomes?

B score stops tracking conduct

B. Each agent's action situation

boundary position choice

information aggregation

payoff scope

Ostrom's seven rule types

2. How does
the model respond?

A fine read as a price

C. Agent behavior

what each model does
with its new options

3. How do agents reshape each
other's situations?

technical substrate: shared memory, compute, tools, logs

EACH AGENT (MICRO)
